## Digital Yacht Update June 2021 Now Available to Download

The latest edition (June 2021) of Digital Update is now available to download from [HERE](#) or click on the link below. In this edition we take a look at our new 4G Xtream internet access system and also our new AquaNav Pro PC - a totally solid state and fan-less marine PC system optimised for navigation with a built in NMEA 2000 interface and Windows 10 operating system.

We also take a look at "Old Nick" (not a reference to our ageing CEO) but CTO, Paul Sumpner's latest personal electric narrow boat project which fits in well with our Greener Horizons' activities.

Good Boating & Stay Safe!
