White Paper on new AIS Class B "SOTDMA" Technology

A new Class B "SOTDMA" AIS technology has recently been approved but there is a lack of clear online information about this new technology, so Digital Yacht's CTO Paul Sumpner has written a short White Paper on the new technology.

The White Paper provides technical details of the new Class B "SOTDMA" technology (also known as "5 Watt"), compares it to the current Class A and Class B technology and looks at which types of boats and applications will most benefit from these new "Class B+" generation of transponders.

DIGITAL YACHT 2018 IS ALL ABOUT NEXT GENERATION NAVIGATION, COMMUNICATION AND ENTERTAINMENT SYSTEMS FOR YOUR BOAT. BOATING SHOULD BE FUN, SAFE AND EASY AND OUR PRODUCTS INTEGRATE INTO EXISTING AND NEW BOAT NETWORKS TO BRING A POWERFUL DIMENSION TO YOUR ON-BOARD ELECTRONICS.
